

I would like to draw your attention to the following vacancy
notices@EMBL Hamburg:

Scientific Technical Officer - Platform for Integrated Structural
Biology at EMBL/CSSB

<http://s.embl.org/HH00138>

Postdoctoral Fellowship - Integrated Structural Biology of Peroxisomal
Translocon Complexes

<http://s.embl.org/HH00134>

Postdoctoral Fellowship - Integrated Structural Biology of Proteins
involved in Cancer Metastasis

<http://s.embl.org/HH00132>

Postdoctoral Fellowship - Integrated Structural Biology of the Von
Willebrand Factor

<http://s.embl.org/HH00135>

Postdoctoral Fellowship - Integrated Structural Biology of type VII
secretion systems

<http://s.embl.org/HH00136>

Postdoctoral Fellowship - Mechanism of nitrogen incorporation
in multifunctional protein complexes by time-resolved structural biology

<http://s.embl.org/HH00133>

The deadline for all applications is April 15*. *Any inquiries can be

sent directly to : matthias.wilmanns@embl-hamburg.de
